

# RETROFIT - T8 LED TUBE

## *FROSTED GLASS TUBE WITH 330° LIGHT EMISSION*

Individually packed tubes

### Features

- Energy efficient LED tubes, higher efficiency than traditional fluorescent tubes
- Achieves similar lighting effect with traditional T8 fluorescent tubes
- Anti-glare glass tube with 330 degree beam angle
- Up to 1950lm for 4ft and 950lm for 2ft models
- 40,000 hours lifespan
- Available in 2 feet and 4 feet lengths
- Easy retrofit installation and replacement of traditional fluorescent tubes
- 20pcs per carton

### Applications

- All types of general lighting
- Recessed, surface-mount and suspended fittings
- Offices, shops, schools, public buildings
- Industrial lighting (low ceiling)
- Replacement of traditional T8 or T5 fluorescent tubes
